

Shark NV356E S2 review

Are you looking for a perfect vacuum cleaner to save money and energy? Well, worry no more, Shark NV356E S2 is here for you. The Shark NV356E is a lightweight, efficient vacuum with strong suction, HEPA filtration, and multi-surface cleaning capability.

The Shark NV356E S2 navigator lift-away professional Upright vacuum is a versatile cleaning tool applicable for both carpets and hard floors. It has demonstrated impressive airflow and suction and outperformed many vacuum cleaners, even those at a higher price point. Its life expectancy is also quite good, it can last for up to ten years given good and regular maintenance. Featuring Lift-away technology it allows the users to detach the canisters for easy access to hard-reach areas. It is also cost-effective with its pricing around 200 dollars. Here's my review of Shark NV356E S2:

Shark NV356E S2 review Breakdown and Review

- Shark NV356E S2 has a lift-away feature that allows the user to detach the canisters for easy access to hard-reach areas.
- Shark NV356E S2 has impressive suction and airflow, outperforming many upright vacuums, even those with higher price points.

Shark NV356E S2 is a 16-pound upright vacuum; it has suction control and HEPA filtration. It has a detachable handheld canister a brush on and off switch and a 30-foot manual wind cord.

The detachable hand-held canisters enable it to be lifted away from the power base making it portable and accessible to hard-reach areas such as stairs drapes and tight spaces, it has different attachments, for cleaning different surfaces, these attachments include air-to-run a motor which is suitable for soft surfaces such as sofa sets, cravers for carpets and brush on for hard floors.

It is equipped with anti-allergen complete seal technology and a HEPA filter making it 99.9% effective in trapping dust and allergens. The swivel steering makes it easy to move around furniture, while the brush roll shutoff gently cleans the delicate surfaces. It has a 2.2 quarts capacitated dust cup, with this feature users can for a long time without frequently emptying it.

With its price approximated around 200 dollars The Shark NV356E S2 vacuum cleaner offers a balance of performance and affordability, making it a reliable and best choice for anyone seeking a comprehensive cleaning solution.

The Shark NV356E S2 Vacuum is designed for durability with a typical lifespan of around seven to ten years of service, with proper and regular maintenance. It comes with a warranty of 5 years covering defects under normal usage conditions.

What we liked;

- It is affordable.
- It has good performance.

- It is work-balanced.
- It is reliable.
- It is durable.

What we did not like;

- Limited hose length
- It is loud

Shark NV356E S2 features

Design and build

When it comes to design, The Shark NV356E S2 comes with an incredibly simple yet sophisticated design. Its dimensions are approximated to be 45.5 inches Height and 15 inches in length, its width is roughly 11.4 inches.

It has a lift away technology with a simple button press transitioning it from an upright model to a portable canister, it is also maneuverable as it has swivel steering. It is equipped with a sealed HEPA filtration system making it ideal equipment. It also has a Brush roll shut off allowing users to switch between deep carpet cleaning and gentle bare floor cleaning, preventing delicate scratches on surfaces.

Its construction materials are of high quality including metal and aluminium for durability; it weighs about 13.7 pounds making it relatively light. On the other hand, it has a large dust cup to reduce the frequency of emptying hence it is efficient.

Upon purchase it comes with several attachments, this includes a dusting brush, an 8-inch crevice tool, and a pet power brush. Overall, it has a sleek design with practical features and solid construction for efficient cleaning solutions.

Speed and performance

The Shark NV365E S2 Vacuum has an impressive performance across different surfaces;

It has a 1200-watt motor powerful enough to deliver a strong suction capable of lifting tiny dirt from carpets and fine debris from a hard floor. Its in-built technology enables it to maintain consistent suction preventing clogs and ensuring effective cleaning throughout the cleaning session.

Connectivity

To connect The Shark NV365E S2 Vacuum cleaner to work, first attach the handle by sliding it into the top of the wand until it clicks, and connect the lower end of the wand to the vacuum head next step is to align the lift-away pod and attach it to the base section. Finally, plug in the power cord by wrapping it on the cord hook and plug it into the wall outlet.

Who is it best suited for?

This device is best suited for individuals who want affordable but highly performing vacuum cleaners. It can also be suitable for people who do laundry businesses due to its high performance and effectiveness.

Are there alternatives to Shark NV365E S2?

Yes, there is an alternative. It is possible to find vacuum cleaners that operate equally to Shark NV365E S2. For instance Shark NV752 (Rotator Powered Lift-Away TruePet).
